She believed there is a lot of impact to the adjoining property on the north side that could have been changed. De La Vega noted we are restricted to what is presented to us and must abide by ordinance requirements. Penberthy stated if someone asks for a variance, there is good case law for the Council to question the variance issue without redesigning the home.

8. **OLD BUSINESS**

A. **Animal Ordinance Review**

Kohlmann stated the current and proposed uniform animal ordinances are attached for review. He stated the uniform ordinance is for preliminary discussion and has been adopted by several South Lake cities already.

De La Vega stated although this is considered uniform, all cities have amended to meet their particular city’s special needs. He discussed our current ordinances. Penberthy gave a historical perspective on the “donkey” ordinance.

Penberthy asked what the problem is in Tonka Bay that would require the adoption of the uniform ordinance. He stated the enforcement now is of the current ordinance and State statutes.

De La Vega stated he had heard this was being proposed so there would

be uniformity from one SLMPD city to the next. He noted every City has their nuances in spite of what this ordinance says. He was concerned about the noise portion of the ordinance and the detail included in the ordinance.

Ansari asked if we choose not to adopt this, will this throw a monkey wrench in the works. De La Vega stated the police would still enforce our current ordinance. He stated the new ordinance will regulate more animals. As Penberthy indicated, exotic animals are covered by State statute. He wasn't convinced all that is in the ordinance is needed. He didn't know what problems will be solved by the passing of this ordinance. Council concurred that there isn't a real advantage to Tonka Bay to pass this ordinance.

**B. LRT Trail Bridge**

Kohlmann stated portions of the plans have been provided by Three Rivers for the Council's review and staff's signature prior to submittal to the State.

De La Vega stated on sheet C31, there is some signage that needs to be changed. He stated the color of the bridge and materials used are not provided, and he is interested in that for coordinating the City monuments.

Clapp noted the existence of a 16-car parking lot south of the former All American Recreation building. De La Vega stated there is no way to get to it. He stated if they are expanding the parking lot without coming to the City for approval. It was believed the parking is temporary and would go away when the construction has been completed.

**Anderson moved to authorize City Administrator Kohlmann to sign the construction documents. Ansari seconded the motion. Ayes 4. Motion carried.**

**9. NEW BUSINESS**

**A. LMCD Representative**

Kohlmann stated Doug Babcock has resigned as LMCD representative after seventeen years of service. De La Vega stated Doug has done an excellent job serving the citizens of Tonka Bay. He was sorry to see him leave and wished him well. He recommended a plaque or some sort of recognition be provided.

**De La Vega moved to accept Babcock's resignation. Anderson**

**seconded the motion. Ayes 4. Motion carried.**

Kohlmann stated Councilmember Clapp has offered to volunteer as LMCD representative. A resolution could be provided for adoption at the next meeting.

Clapp stated he would be happy to serve as the LMCD representative. He wondered if the City has to do its due diligence and advertise the position.

De La Vega stated he would like Clapp to serve until the end of the year, and we will have an opportunity to review all our appointments the first of the year.

**Anderson moved to appoint Jeff Clapp as interim LMCD representative and confirm this appointment through adoption of a resolution at the May 27, 2014 meeting. Ansari seconded the motion. Ayes 4. Motion carried.**

11. **REPORTS**

A. **Administrator** – Kohlmann stated the speed trailer results for Birch Bluff Road are attached. The trailer collected data from both directions. Data was collected in June of 2013.

De La Vega asked if there is a plan to repeat the collection. Kohlmann stated there isn't a plan to do so.

Clapp stated the number of vehicles is a concern to him. De La Vega stated there are 500 per day which is incredible.

De La Vega stated there are alternatives to alleviate the problems. He suggested police patrol in the area during peak hours. As a short term solution, he suggested raising the awareness.

**Phil Roe, 85 Birch Bluff Road** discussed his concerns about the aggressiveness of the drivers along Birch Bluff Road. He stated it is keeping residents off the streets because of the dangerous situation. He stated there is also a resident who now has his own speed limit sign. FedEx trucks are also unsafe drivers.

The possibility of installing speed bumps and closing off the street were discussed. Roe offered to ask neighbors what they believed would be a viable solution to the problem. De La Vega stated there is definitely a problem, but he didn't want to solve the problem unless it is palatable to the residents of the area. He welcomed Roe to come back to a future City Council meeting.
