ITEM NO. 8A

Memo

To: Mayor and City Council
From: Lindy Crawford, City Administrator
Justin Messner, City Engineer
Date: December 8, 2015
Re: Pleasant Park Restoration

In September the City Council approved WSB to conduct a desktop review for Pleasant Park. The City Council also asked staff to obtain quotes for additional work that would be required in the park to restore the sink holes.

Our City Engineer will be present to discuss the desktop review as well as present quotes from WSB, American Engineering Testing and Braun Intertec to complete a Phase II ESA at Pleasant Park.

The following quotes assume that Public Works will do the excavating and restoration so costs have not been included for this work. This follows the case with the initial proposal. Based on the results from the desktop review WSB was also able to conclude that soil borings are not needed.

WSB:	\$3,500
American Engineering Testing:	\$3,800
Braun Intertec:	\$5,800

Council Action Requested

Discuss desktop review and approve firm to conduct a Phase II ESA not to exceed the amount listed on chosen quote.
