

MEMO

To Mayor and City Council
From Lindy Crawford, City Administrator
Date November 9, 2016
Re Zoning Ordinance Amendments Sections 1002 and 1011

Staff completed the requested revisions to Section 1002 from the October 25 Council meeting. The revisions specifically include basement, driveway, and wind energy conservation system.

Staff drafted a definition and ordinance language for visually impairing element for your review. Also included in your packet is a draft solar energy systems ordinance. It is the City of St. Anthony's language with staff recommendations in the margin.

Staff recommends another round of reviewing the documents and providing direction to staff for revisions.
