Re: Speed Study

---

At the last City Council meeting on July 28, 2015, the Council reviewed speed study reports provided by the SLMPD. Following this review, it was requested that staff contact the SLMPD to follow up on the following items:

What percentage of the total (for each direction) is over 30 mph? Can we get the real numbers? *Traffic survey summaries have been provided to answer these questions.*

Does the trailer pick up walkers, runners, cyclists, etc.? If so, then we may want to discount the 8 mph numbers. *The trailers do not pick up walkers and runners, but it could possibly pick up bikers if they are over 8mph.*

Could the 8 mph be an error? *The 8mph numbers are valid because that is the minimum speed that the unit records. We can set it higher or lower if so desired.*
