To Mayor and City Council
From Lindy Crawford, City Administrator
Date August 10, 2016
Re Utility Payment – Meyer, 90 Tonka Bay Rd

Last year the City Council changed the tier structure and rate of the City's water usage.

Thomas Meyer, 90 Tonka Bay Rd requested to be on tonight's City Council agenda regarding his water usage. Not only did his bill inevitably increase, his water usage did as well, see attached spreadsheet.

On June 9, 2016, Meyer requested that his water meter be tested. Public Works removed the water meter, per Meyer's request, and sent it in for testing. The test results, attached, showed no malfunction of the meter. Due to state law, we are not allowed to reinstall lead based meters into homes. Public Works installed a new, plastic water meter.

Meyer will be present to request a credit to his utility account.

Council Action Requested

Discuss Mr. Meyer's request.
