

MEMO

To Mayor and City Council
From Lindy Crawford, City Administrator
Date September 13, 2016
Re Minnesota Department of Health Grant Agreement

Staff applied for a Source Water Protection Implementation grant through the Minnesota Department of Health earlier this year in the amount of \$10,000. The City was awarded the grant to identify unlocated wells within the Drinking Water Supply Management Area and update the Potential Contaminant Source Inventory.

Staff is requesting authorization to enter into the attached contract with the Department of Health. Our City Engineer has reviewed the contract and proposed no changes.
