Memo

To: Mayor and City Council
From: Robin Bowman, Public Works Superintendent
Date: May 10, 2016
Re: 2016 Seal Coating Quotes

Staff received two out of three requested proposals for the 2016 seal coating project. The lowest proposal was received from Allied Blacktop in the amount of \$37,373 or \$1.07 per square yard. This reflects a decrease of seventeen cents per square yard over last year's price.

| <u>Seal Coating</u> | <u>Cost</u> |
|------------------------|-------------|
| Allied Blacktop | \$37,343 |
| Minnesota Roadways Co. | \$52,350 |
| Pearson Brothers Inc. | No response |

Last year it was brought up to do Woodpecker Ridge Rd in the same type of product that was put down as a test patch. From what staff has seen in its performance, I would not recommend using it again. It is not a self-healing product like the seal coat we have been using and continue to use. Once the product hardens, it is more like a concrete with little to no flexing, and in turn prevents it from filling cracks that have reformed. As a rule, seal coat will heat up in the summer, it will fill the crack and seal them especially as it is driven on unlike the slurry coat system that is in place now.

The project as identified in the specifications must be completed by July 31, 2016, weather permitting.

Source of Funds

The 2016 CIP budget for streets is \$62,417. Of this amount, \$44,667 has been identified for seal coating. That leaves us with \$17,750 for seal coat chips, striping and patching.

The seal coat rock for this project, if approved, will be purchased directly from the aggregate company at a cost of \$10,734.50.

The seal coat bids being presented today represent the asphalt emulsion, putting the rock on the streets, sweeping the rock up and traffic control. Collectively, the project is at \$48,077.50.
