

# City of Tonka Bay Survey Requirements

4901 Manitou Road  
Tonka Bay MN 55331  
Phone: 952-474-7994 Fax: 952-474-6538  
www.cityoftonkabay.net  
Adopted 10/4/07

## **A. Initial Survey**

Every application for building permit (excluding interior remodels, re-roofs, re-siding and general maintenance) shall be accompanied by a certified survey at a scale and in quantities deemed necessary by the City of Tonka Bay unless waived in accordance with the City's survey exemption policy. Because the survey will be used to determine an application's conformance with City Code, it shall be the responsibility of the applicant to ensure information provided on the survey corresponds to submitted building plans (including existing and proposed topography). An issued building permit shall only authorize those land alterations identified on the associated survey. Surveys shall include all information as deemed necessary by the City to provide for the enforcement of city code.

## **B. Foundation Survey**

Applications for new structures shall require that an as-built foundation survey be submitted by a time specified by the City (general prior to completing a foundation inspection) unless waived in accordance with the City's survey exemption policy. The as-built foundation survey shall certify both the final setbacks of the structure being built, and the elevations at which the new structure exists. Failure to provide the foundation survey is in direct violation of this ordinance and expenditures incurred beyond the construction of the foundation will not be considered in determining the actions required to bring the building back into conformance if not built to approved plans.

## **C. As-Built Survey**

Applications for new structures shall require that an as-built survey be submitted upon completion of work unless waived in accordance with the City's survey exemption policy. The as-built survey shall certify the final topography of the site, verify the drainage patterns existing upon completion of work, and the distance from average ground level to the highest roof peak. Any additional information needed by the city to ensure compliance with code can also be required. The city reserves the right to withhold the certificate of occupancy for dwelling units until final grading addresses all problems that may be detrimental to adjacent properties.
