De La Vega explained the process for the variance discussion.

Ramler-Olson noted that within the staff report, there was nonconforming structure language from the ordinance, but that the structure is an illegal nonconforming structure, therefore the request should not be reviewed using the ordinance language.

LaBelle, De La Vega, Ansari, Tingley, Rob Peterson and Ramler-Olson discussed the multiple iron markers on the surveys found on the property and encroachment of the principal structure.

Jennings asked why a conditional use permit would not be used in this case. Tingley explained that City Code require variances for setbacks.

De La Vega opened the public hearing.

Bill McHale, 180 Wildhurst Road and petitioner, noted that the new deck was going to be separated from the house and they were no longer asking for a variance for the new deck. McHale added that what they were asking was for variances for the house

and deck as built.

Tingley explained that prior to the permit being issued, part of the deck was removed. The new request is to restore the deck, but a variance has not been submitted.

De La Vega, Tingley and McHale discussed the variances submitted.

LaBelle asked if the variance would take the house from an illegal nonconformity to a legal nonconformity.

De La Vega answered affirmatively.

McHale, Tingley, Biggerstaff and De La Vega discussed the variance and nonconformance.

De La Vega closed the public hearing.

LaBelle noted that he supported the first variance but was not supportive of the second proposed variance related to the deck and home addition. De La Vega agreed.

Tingley detailed the motion options for Council.

LaBelle and Tingley discussed next steps for the applicant.

Jenser noted that the Minnetonka Baseball Association would love to partner with the City and take care of the costs of the field improvements and moving the field.

De La Vega asked if the Minnetonka Baseball Association was offering to pay the costs associated with moving structures, so the parking lot could be squared off.

Jenser answered affirmatively and explained they are willing to pay for moving the field but not the parking lot.

De La Vega noted that they asked engineering to hold off until the discussion with the Minnetonka Baseball Association. De La Vega asked if they had an idea what it would take to square it off.

Preisler explained the proposal was to extend the corner of the parking lot and that the field movement would depend on the Minnetonka Baseball Association's preferences to be a certain distance outside the parking lot.

LaBelle, De La Vega, Anderson and Jenser discussed field dimensions and orientation.

Jenser noted that regardless of what happens with the parking lot, they would like to have the ability to cut back the edge, so they can use it.
