## Inflow and Infiltration Inspection Certificate Application

As of July 2020, no properties in Tonka Bay may be sold or change ownership without first obtaining a certificate of Inflow and Infiltration and Inspection from the City of Tonka Bay. In short, this entails contracting a professional to televise the sewer line between a home and the road (the area of the line owned by the property owner) to determine if the existing sewer line meets City Code (no obvious breaks, cracks, sags, leaks, etc. See Section 827 for full list).

### APPLICANTS STATEMENT

A contractor has televised the line and we are ready for inspection and, to the best of my knowledge, the information I have submitted is true and correct. I agree to bring my sewer line in compliance with the City's ordinances if there is an inflow and infiltration violation. I have read and understand section 827 related to inflow and infiltration.
